

SACCHARUM

Hedonist Design Resort

SAVOY *signature*

Hedonist Design Resort

Overlooking the sea, Saccharum is a design hotel nestled in a small natural shelter on the south western coast of the island. The contemporary decoration was idealized by the renowned interior designer Nini Andrade Silva, together with RH+ Arquitectos, who found inspiration in the local process of making sugar with the saccharine cane. The atmosphere deepens the communion with the surrounding nature and Madeira's ancient traditions. The spa itself is a temple of serenity and natural well-being.

“

After witnessing a magnificent sunset from the balcony of their panoramic suite, they came down to the bar. Everything was a reminder of an exclusive English club.

But when the time came to choose a drink, they could only ask for a glass of Madeira wine, the greatest symbol of the century old relation of Madeira and Great Britain, favoured by Churchill and quoted by Shakespeare.

*In The Story of
The House of Sugar Water*

Sea-mountain sanctuary

Saccharum is located on the south coast of Madeira island in a haven forged by water and fire.

Where sailing boats,
travelers and seabirds
find their natural
retreat.

Minimalism with a twist

As a design hotel, Saccharum is inspired by the beauty of the sugar cane and by its milling and distilling local heritage.

The welcoming and reserved feeling is double-influenced by the ocean and the scarp's closeness. Signed by the award-winning Madeiran interior designer Nini Andrade Silva and the renowned architecture studio RH+.

Sweet dreams are made of this

Simplicity that meets tranquility. The hotel has **243 rooms**

Modern and comfortable rooms, most of them offering a spacious private balcony with impressive views over the Atlantic ocean or Calheta's steep mountains.

An immersive story

You know what to expect from a superior spa – a wide range of treatments, that will fully reinvigorate and revitalize your body and mind. Saccharum Spa adds a unique sensory experience based on the sugar cane concept. The relaxing atmosphere is created by the light, the materials and the colour scheme.

Just imagine the sensation of diving into a swimming pool shimmering with gold, reminiscent of molasses, the liquid that results from the sugar crystallization.
